CONSTIPATION Cured. Piles, Hemorrhoids, the Great Liver and Stomach Regulator, and BLOOD PURIFIER. Send, mail, to any address, 25 cents.  
GUARANTEES ISSUED ONLY BY  
FOR SALE BY E. S. LEADBEATER & SONS  
Alexandria, Virginia.

**MAGNETIC NERVEINE.**  
Is sold with written guarantee to cure all nervous Prostration, Fits, Dizziness, Headaches, Neuritis, and all nervous diseases, caused by excess of alcohol, tobacco and all other stimulants. Soot is composed of pure carbon, and is formed by the hot vapor of the hydro-carbons striking the cold walls of the chimney or stovepipe and condensing thereon. It is a very light, porous and impalpable powder and like its twin-brother, charcoal, which is the same element in a different form, possesses the property of absorbing and retaining a wonderfully large amount of gas. The great danger of disease about cesspools, sewers, drains and similar places is almost entirely due to gas given off by decomposing matter. If soot be sprinkled about these places, the idea is that it will absorb the foul gas, making the air in the vicinity pure and fresh. When cholera was so greatly feared in Baltimore in 1867 and the years following, Dr. Pigott, a celebrated chemist of the time, announced that the only disinfectant of any use in the cholera fight was copperas or sulphate of iron, and he made a composition of charcoal and copperas which was said to have been invaluable in its disinfecting properties. The idea is, first, provide a means for absorbing the death dealing gas, carrying with it millions of disease germs, then have the necessary agent to destroy the germs after they are absorbed. Soot is claimed to be superior to charcoal because it contains some of the unoxidized hydrocarbons contained in the smoke from the fuel, and among these hydrocarbons is cresote, a germ-killer of wonderful power.

**Moslems for the South.**  
Ex-Consul Alex. Russell Webb has practically completed his plans for the importation of Mussulman colonists to settle in the South and become American citizens. This proposed immigration of the followers of Mohammed from India contemplates much more than the simple formation of colonies and the purchase of lands. It means the building of picturesque cities and towns upon the model set by the Sarolic architecture of the eighth and ninth centuries in India.

It is proposed to reproduce in America some of the beautiful mosques built in India during the palmy days of the Mogul emperors. Those to be built in the smaller colonies of the South will probably be plain and unpretentious, though following in general outlines the Oriental idea and spirit. They will be constructed probably of cheap material at first, and later on as the colonists begin to prosper under the American government more beauty and gorgeousness will be apparent in these simple temples.

The first motive of importance will probably be built in New York city and it will be a very elaborate and impressive structure. Others will be erected in many other important cities. American converts will contribute largely to the expense of its maintenance. Mr. Webb positively asserts that the project of immigration of colonists from India will surely be realized, though the English government may object to the departure of so many tarrying people as will be included in the flower of the Mohammedans who will immigrate. Whether England does or not, however, he says, the Mohammedans will come.

Mr. Webb said: "Many of the rich Mohammedans, who comprise the syndicate for which I am securing estimates for land in the South for colonization purposes, are interested in the steamship lines plying in the far East, and in this way the syndicate is enabled within 36 hours after the cable announcing the purchase of the lands to ship the first 1,000 colonists if it is considered expedient to do so."

Mr. Webb does not anticipate any obstacle on the part of the United States government or private citizens to frustrate the scheme of immigration.

**SOOT AS A DISINFECTANT.**—Mr. C. D. Barnitz, a prominent attorney of Baltimore, has suggested a means of preventing cholera and other diseases by a cheap and effective method. The remedy is intended for families either too poor to buy disinfectants or unwilling to go to the trouble of obtaining them. The remedy is common soot—such as can be obtained from any chimney. A box of the material can be collected and kept about the house at no expense whatever. Soot is composed of pure carbon, and is formed by the hot vapor of the hydro-carbons striking the cold walls of the chimney or stovepipe and condensing thereon. It is a very light, porous and impalpable powder and like its twin-brother, charcoal, which is the same element in a different form, possesses the property of absorbing and retaining a wonderfully large amount of gas. The great danger of disease about cesspools, sewers, drains and similar places is almost entirely due to gas given off by decomposing matter. If soot be sprinkled about these places, the idea is that it will absorb the foul gas, making the air in the vicinity pure and fresh. When cholera was so greatly feared in Baltimore in 1867 and the years following, Dr. Pigott, a celebrated chemist of the time, announced that the only disinfectant of any use in the cholera fight was copperas or sulphate of iron, and he made a composition of charcoal and copperas which was said to have been invaluable in its disinfecting properties. The idea is, first, provide a means for absorbing the death dealing gas, carrying with it millions of disease germs, then have the necessary agent to destroy the germs after they are absorbed. Soot is claimed to be superior to charcoal because it contains some of the unoxidized hydrocarbons contained in the smoke from the fuel, and among these hydrocarbons is cresote, a germ-killer of wonderful power.

**TO THE OWNERS OF DOGS.**  
MAYOR'S OFFICE, ALEXANDRIA, VA.,  
June 1, 1893.  
In consequence of the increasing number of complaints made recently against the owners of dogs that have bitten people, and in face of the fact that there are dogs now in the city which have been bitten by animals of their own species which it was subsequently discovered were suffering from hydrophobia, I hereby order all owners of all animals of the canine species to securely muzzle the same before they are allowed to run at large. If any such animal of the dog kind be found running at large during the continuance of this proclamation without the required muzzle, it shall be seized and placed in a pound, and if such animal be not redeemed within forty-eight hours by the payment of a fine of ONE DOLLAR, said animal will be conveyed to a suitable place and slaughtered. This order shall be in force from to-day, June 1st, 1893, to October 1st, 1893.  
HENRY STRAUSS,  
Mayor.

**HEALTH NOTICE.**  
OFFICE BOARD OF HEALTH,  
ALEXANDRIA, VA., June 1st, 1893.  
The Board of Health will make its annual inspection tour of the city on Wednesday, June 7th, 1893. All persons found maintaining nuisances on their premises or allowing grass to grow in their gutters will be proceeded against accordingly to law and the provisions of an ordinance of the city in said cases made and provided.  
Furthermore be it known that all persons are hereby warned against throwing garbage in any street or alley. Any one detected in the act of doing so will be liable to the full extent of the law. WM. R. PURVIS, M.D.,  
JUL 10th Health Officer.

**TO THE OWNERS OF DOGS.**  
MAYOR'S OFFICE, ALEXANDRIA, VA.,  
May 29, 1893.  
All persons owning or intending to keep any animal of the dog or canine species must come forward on or before JUNE TWELFTH, 1893, and take out a license for the same from the Auditor.  
After the 11th of June all persons owning or harboring dogs found on his, her or their premises without the required license will be fined, as the laws on the subject require, \$5 for every dog so owned or harbored.  
The Mayor hopes that the law will be complied with, and that the police officers will not be required to report any one. The law will be enforced.  
HENRY STRAUSS, Mayor.  
License and Tag—Female dog, \$1.75; male dog, \$1.25.

**DENTISTRY.**  
VERY BEST  
TIME IS MONEY.  
Why spend days in the chair of an old-style dentist when hours should suffice?  
Think of the agony long drawn out!  
Think of the expense!  
Science has done more for dentistry in the last decade than for any other art. She has devised methods that render operations painless, and invented appliances that make them quick—and thereby cheap. We have these methods and appliances and skillful men to use them—no boys or students.  
Why not drop in for consultation?—twice cost you nothing, and you'll see the best appointed dental office in America.

UNIVERSAL FASHION COMPANY'S PERFECT FITTING PATTERNS excel all others.  
Because they are perfect in fit, each part being cut with exactitude.  
Because material is saved by their use.  
Because the descriptions are short, concise and yet embrace every detail, giving all necessary instructions how to put the model together.  
Because they come in all necessary sizes.  
Because they are so cut that the measure need only be taken in the ordinary manner, and no allowance or deduction is required as is the case with other patterns.  
Because no matter how intricate the design, the pattern is so cut, notched and arranged that a child can put it together without difficulty.  
Because when the garment is made like the pattern, it is sure to look like the illustration by which it was selected.  
Because they are put in envelopes bearing the description in three languages.  
Because they are the lowest in price.  
Because they are absolutely perfect in fit, and save time, labor, material, money and patience.

**D. BENDHEIM'S,**  
316 KING STREET.

Do you know what a "forced sale" means? Do you know this is the first we've had in twenty-five years? and telling you this is giving you an insight into our business beyond which you do not care to go. This is a "forced sale" in every sense of the word—a slaughter of new seasonable goods. Owing to the backwardness of this season we are overstocked, and are forced to sell. We intend to rip the "vital existence" out of the price. The mere mention of a "forced sale" of our immense stock right in the heart of the busy season must create a furore amongst the shopping public. No need for you to go to Washington. Watch our sale for the coming three weeks. We state plainly and guarantee our statement that the prices below quoted present from one-fourth to one-fifth actual original cost. To this we affix our reputation.  
Do not read carefully every item and call at the opening hour of sale, WEDNESDAY MORNING at 8:30. Our store will be closed Tuesday in order to arrange stock.  
Terms of Sale—STRICTLY CASH.
